No change

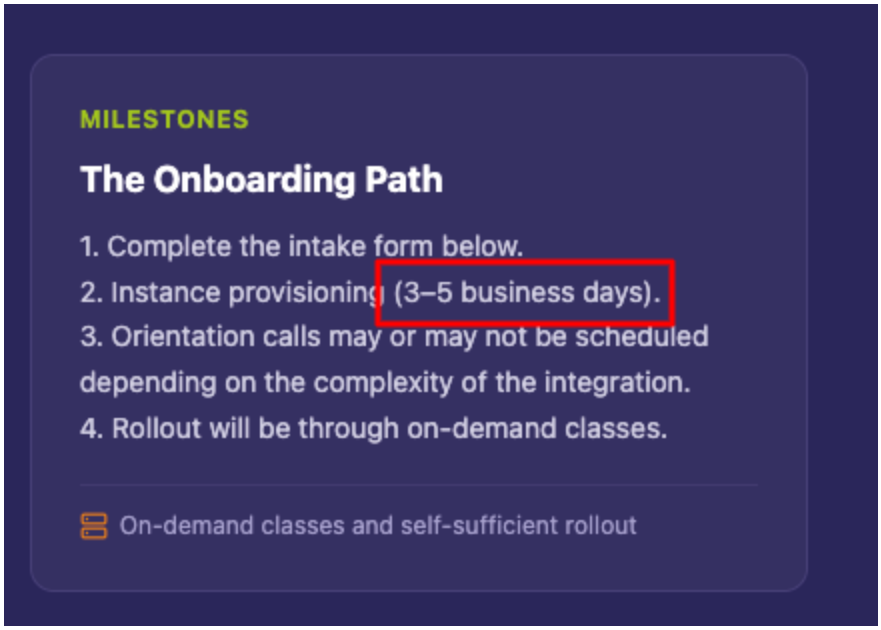

Welcome to Altmetric Explorer

So much better, but can the text be white?

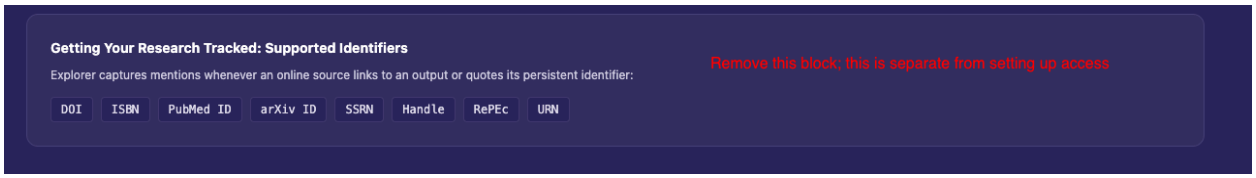

Understanding Your Role & Explorer Instance

Do not commit to this timeline, leave vague

Setting Up Access: Three Core Methods

This block was not removed in your update. Do that now.

Institutional Data Integrations

Altmetric Badges Setup & Simulator

Same feedback here - can the score in the badge be white text?

Intake form

The form - I am okay using it in this app instead of the google forms, BUT, for testing, only send responses to m.nunemaker@digital-science.com. We'll adjust that when it is ready to be used.

Whatever form is used, users need a way to skip the sections not covered by their contracts (data integration, badges, etc)

This form is probably the place to capture whitelisting information, not above in section "setting up access"
